- Empower Global Investor Participation

Market

Problem

Challenges in Traditional Development Finance

- High barriers to entry requiring significant capital
- Debt facilities are illiquid, limiting financial flexibility
- Complex transactions with intermediaries increase costs & delays
- Lack of transparency erodes investor trust
- Geographic and regulatory barriers hinder global investments

Development Finance Tokenization Opportunity

- \$11 trillion global Development Finance market ripe for transformation
- Tokenized assets projected to reach \$10 trillion by 2030
- 76% of investors like platforms offering liquidity and fractional ownership

Solution

Innovative Tokenization Platform

- Enables fractional ownership for inclusive investment
- Blockchain-backed transparency and immutability
- Smart contracts automate transactions and reduce costs
- A globally accessible marketplace for seamless transactions
- Offers enhanced liquidity via secondary marketplace for trading

Features

	Tokenized Private Credit		Smart Contract Automation
	Fractional Ownership		DeFi Integration
	Local Regulatory Compliance		User Rewards
	Secondary Marketplace Trading (TBA)		Real-Time Market Insights
	Blockchain Transparency		Global Accessibility
	Portfolio Management		Seamless Transactions
	Fixed Income Distribution		Investor Community
	Customizable Investment Options		Sustainable Investment Opportunities

Technology

World-Class Architecture

- Built on the Plume network for scalability and low fees
- Integrated smart contracts automate ownership transfers
- GDPR-compliant data storage using AWS infrastructure
- Secondary marketplace for real-time token trading (subject to legal and regulatory requirements and advice)
- Built-in analytics for real-time tracking and performance insights
- Interoperable with multiple blockchains for greater flexibility

Model

Revenue Streams

- Transaction fees on RWA tokens are purchased
- Asset tokenization services for developers
- Subscription plans offering advanced analytics
- DeFi integration fees for lending and liquidity pools

Finance

Projected Growth

- Year 1: \$2M revenue, 500 investments tokenized
- Year 5: \$45M revenue, 5,000 investments tokenized
- 60% gross margins with diversified revenue streams
